INTERNSHIPS

SUMMER INTERN AT UNICONVERGE TECHNOLOGIES Pvt Ltd

April-May 2020

MACHINE LEARNING INTERN (NLP)

- We were supposed to do bilingual text classification wherein the training data was in English and the test data was in Multiple Language and we had to decide whether it was a toxic or non toxic. We used BERT(Bidirectional Encoder Representations from Transformers) in our model with help of TPU.

PROFESSIONAL RECOGNITION

- Received Internship completion certificate for the same.

SUMMER INTERN AT BAJAJ CAPITAL Pvt LTD

June-July 2019

BUSINESS DEVELOPMENT INTERN

- I was involved with meeting with the clients and handling all their data, analyzing it further to be shown to the Business Associate to choose the best plan for the client as to where they should invest their wealth.

PROFESSIONAL RECOGNITION

- Received Internship completion certificate for the same.

PROJECTS

- Black Friday Predictions** - A regression problem wherein we have to find the price of a particular product on Black Friday sale, used XGBOOST Algorithm, a decision tree based algorithm. Tuned different parameters present in the XGBOOST to gain the best results of the Dataset.
- Loan Prediction Dataset** - A classic classification problem. Applied Logistic Regression and KNN to predict whether a loan would get approved or not. (Received 80% efficiency with KNN, 75% with LR)
